Тема 3.2 Мой рабочий день. Простое прошедшее время.

Задание № 1.

Прочтите текст ответьте на вопросы, выбрав один из вариантов ответа.

My Working Day

My working day starts very early. From Monday to Friday I get up at half past three and I have a shower and a cup of coffee. I usually leave the house at ten past four because the car always arrives a few minutes early. I get to the studio at about five o'clock and start work. My programme Good Morning Britain starts at seven o'clock and finishes at nine o'clock. Then I leave the studio at a quarter past ten. After that, I go shopping and visit some friends. I get home at three o'clock. A woman helps me with the housework and the ironing. I read a newspaper and do some work.

Then my husband gets home at half past five in the evening and I cook dinner. We stay at home in the evening. We don't go out because I go to bed very early. We usually watch television and then I go to bed at half past eight, I'm usually asleep by nine o'clock.

I think my job is very interesting but I don't like getting up very early.

1. The person is a woman.

A) True

B) False

C) Not stated

2. She is a television journalist.

A) True

B) False

C) Not stated

3. She drives her car to work.

A) True

B) False

C) Not stated

4. She goes home after the programme finishes.

A) True

B) False

C) Not stated

5. She is in the house alone till her husband arrives home.

A) True

B) False

C) Not stated

6. She goes to bed early during the week.

A) True

B) False

C) Not stated

7. She works with her husband.

A) True

B) False

C) Not stated

8. She likes everything about her job.

A) True

B) False

C) Not stated

Задайте все типы вопросов к данным предложениям:

1. Tourists are interested in visiting ancient eastern countries.

12. Do you have a rest after study?
13. What do you usually do in the evening?
14. When do I usually go to bed?

Тема 3.3 Разговор по телефону. Простое будущее время.

Задание № 1.

Прочтите и переведите диалог письменно:

V1: Hello, White Water Sports Centre.

Janet: Hello, I wanted to enquire about a job at the centre.

V1: Right, I'll just put you through to the manager.

Steve: Hello, Steve Thompson speaking.

Janet: Hello, my name's Janet Willis. Er, I'm looking for a part-time job and I saw an ad saying that you have some vacancies. I was wondering what sort of people

you were looking for.

Steve: Well at present we're looking for a part-time pool attendant, I don't know if you're interested in that?

Janet: Oh, yes, definitely.

Steve: OK, have you done this sort of job before?

Janet: Oh, yes, I've spent the last three summers working for Children's Summer Camps, so I did a lot of pool supervision, and I'm actually a sports student - water sports is my special area.

Steve: OK, well no need to ask if you can swim then ...

Janet: No, I'm certainly not afraid of the water. So what does the job at the pool involve?

Steve: You'd mainly be responsible for supervising the swimmers - we have to watch them all the time, obviously, in case of accidents, so you'd have regular shifts there.

Janet: OK.

Steve: Then as well as that, you'd have to look after the equipment that's used by the beginners' classes

Janet: Right - and would I be involved in teaching them at all? I'd be quite interested in that.

Steve: Well, they have their own instructor, so that's not really part of the job. The attendant's job does involve taking regular water quality tests ... but you wouldn't be involved in cleaning the pool or anything like that.

Janet: OK. And the ad said you wanted someone just twice a week.

Steve: Yes, that's right.

Janet: Can I choose which days?

Steve: Erm, well if you'd rung up earlier you could have done but I'm afraid it's got to be Mondays and Wednesdays - we've got someone for Tuesdays and Thursdays, and the weekends are already fully staffed. Is that going to be a problem for you?

Janet: No, that should be alright. And the ad said it was evening work, right?

Steve: Yes, you start at 6, and the pool closes at 9.30, but you won't get away until 10 by the time you've checked the lockers and changing rooms.

Janet: Fine.

Janet: And how much do you pay?

Steve: The basic hourly rate is \$15, but we'd go up to \$19 for someone with the right qualifications.

Janet: Well I've got life-saving certificates and first aid qualifications.

Steve: Oh, with that and your experience you'd probably get the maximum rate then. Obviously, you'd have to come along for an interview, if you're interested?

Janet: Oh it sounds just the job I'm looking for. Shall we fix a time for the interview now?

Steve: OK ... er, it's Janet, isn't it?

Janet: Yeah, Janet Willis.

Steve: How about Friday morning, Janet? Around 11.00.

Janet: Oh sorry - I have lectures, but I could make the afternoon.

Steve: 2 p.m.?

Janet: Fine. And can I just check on where you are ... is it Findon Avenue?

Steve: No, it's 23 - 27 Farndon Avenue, that's FARNDON, it's off East Gate.

Janet: East Gate ... Fine. I'll look forward to meeting you, then.

Steve: OK, so if you need to phone me before then, you can get through to me directly on 053210.

Janet: Is there anything I need to bring along to the interview?

Steve: Well, you do need to fill in an application form - I'll put one in the post for you, so can you fill that in and bring it along.

Janet: You don't want me to post it back to you?

Steve: No, just remember to bring it along with you.

Janet: What about references? Should I bring any?

Steve: No, but do have your certificates with you when you come, we need to see those.

Janet: Great. Thanks very much then, I'll see you on Friday. Bye.

Steve: Bye.

Составьте предложения из слов, обращая внимание на порядок, запишите их в тетрадь:

1. / David/ country/ will/ not/his/ in/ with/ friend/ stay/the/;
2. I/ Sunday/ will/ relatives/ next/ meet/ my/;

Native Americans

The story of the Native Americans - or American Indians -is one that is unique, tragic and inspiring. It is unique because the Indians were the original inhabitants of the American continent and experienced every phase of its European settlement. It is tragic because the conflict between the Indians and whites paralleled the experience of peoples throughout the world who have come in contact with expanding, industrialized societies. It is an inspiring story because the Native Americans, although lost much of their land in the 19th century, have survived, have asserted their political and economic rights, and have succeeded in retaining their identity and culture despite the onslaught of modern civilization.

Today Native Americans are full citizens of the United States. They are proud of their own cultural heritage, which they are trying to protect and maintain.

Marks of that heritage can be found all over the United States. Many of the names on United States maps Massachusetts, Ohio, Michigan, Kansas - are Indian words. Indians taught the Europeans how to cultivate crops such as corn, tomatoes, potatoes, tobacco.

About half of the Indians in the United States live in large cities and rural areas throughout the country. The remainders live in about 300 federal reservations (land set for their use).

Today, there is about 1, 4 million Native Americans, which is believed to be more than they were when the first European explorers arrived in the New World.

a) Mark the statements which are True.

1. The story of the Native Americans is one of saddest in the history of mankind.

2. The Indians have never been the original inhabitants of the American continent.

3. The Native Americans have managed to retain their identity and culture.

4. It's almost impossible to find any marks of the Indians' heritage in the USA nowadays.

5. Today all Indians live in federal reservations.

6. Indians taught the Europeans how to cultivate crops such as corn, tomatoes, potatoes, tobacco.

b) Write down your answers to the following questions.

1. The story of American Indians is unique, tragic and inspiring, isn't it?
 2. Why is the story of American Indians tragic?
 3. Can you explain why their story is inspiring?
 4. Where can the marks of Indian heritage be found?
 5. Where do American Indians live nowadays?
 6. How many Native Americans are there in the USA today?
- c) Ask five questions on the text.

Text

Charles Dickens was born Feb. 7, 1812, Portsmouth, Hampshire, England. He died June 9, 1870, Gad's Hill, near Chatham, Kent.

This British novelist is generally considered the greatest of the Victorian period.

The defining moment of Dickens's life occurred when he was 12 years old. With his father in debtors' prison, he was withdrawn from school and forced to work in a factory. This deeply affected the sensitive boy. Though he returned to school at 13, his formal education ended at 15. As a young man, he worked as a reporter.

His fiction career began with short pieces reprinted as Sketches by "Boz" (1836). He exhibited a great ability to spin a story in an entertaining manner and this quality, combined with the serialization of his comic novel The Pickwick Papers (1837), made him the most popular English author of his time. The serialization of such works as Oliver Twist (1838) and The Old Curiosity Shop (1841) followed.

After a trip to America, he wrote A Christmas Carol (1843) in a few weeks. With Dombey and Son (1848), his novels began to express a heightened uneasiness about the evils of Victorian industrial society, which intensified in the semiautobiographical David Copperfield (1850), as well as in Bleak House (1853), Little Dorrit (1857), Great Expectations (1861), and others.

A Tale of Two Cities (1859) appeared in the period when he achieved great popularity for his public readings. Dickens's works are characterized by an encyclopaedic knowledge of London, pathos, a vein of the macabre, a pervasive spirit of benevolence and geniality, inexhaustible powers of character creation, an acute ear for characteristic speech, and a highly individual and inventive prose style

Careers in the Computer Field

The information technology (IT) sector experienced tremendous growth in the late 20th century. By the early 21st century, computer-related jobs employed millions of people around the world.

Not all computer professionals work directly for a company. Many are independent consultants who are hired to accomplish a specific task and are paid by the hour. A consulting job may last from a few hours to several years.

Systems analysts develop methods for computerizing businesses and scientific centers. They and computer consultants also improve the efficiency of systems already in use. Computer-security specialists help protect the integrity of the huge information banks developed by businesses and governments.

Applications programmers write commercial programs to be used by businesses and other organizations as well as in the home. Systems programmers write the complex programs that control the inner workings of the computer. Many specialty areas exist within these two large groups, such as database programmers and designers of graphical user interfaces.

As more small- and medium-sized businesses have become computerized, they have required more people to operate their systems. Computer operators and systems administrators typically need to handle several types of computers and be familiar with a diversified range of applications and systems software. Companies also need specialists to administer their Web sites.

Other important careers in the IT field include computer scientists, who perform research and teach at universities, and hardware designers and engineers, who work in areas such as microchip and peripheral equipment design. Information-center or database administrators manage the information collections developed by businesses or data banks.

Management careers include that of a data-processing manager, who is responsible for managing the computing needs of a business. At the executive level is the chief information officer (CIO) of a company, who is responsible for the computing needs of an entire corporation.

Various support careers also exist, including technical writing, computer-based training, and operations management, which do not necessarily require extremely technical backgrounds. Graphic artists (especially those familiar with computer-based drawing programs) work with programmers and Web-page designers to create informative and attractive Web sites.
